

PUBBLICAZIONI ULTIMI DIECI ANNI

Characterization of the mechanisms involved in the gastric antisecretory effect of TLQP-21, a vgf-derived peptide, in rats.

Sibilia V, Pagani F, Bulgarelli I, Tulipano G, Possenti R, Guidobono F.
Amino Acids. 2010 Dec 4

Selective expression of TLQP-21 and other VGF peptides in gastric neuroendocrine cells and modulation by feeding.

Brancia C, Cocco C, D'Amato F, Noli B, Sanna F, Possenti R, Argiolas A, Ferri GL.
J Endocrinol. 2010 Dec;207(3):329-41.

Activation of kinase phosphorylation by heat-shift and mild heat-shock

Pamela Petrocchi*, Stefania Quaresima{, Maria Patrizia Mongiardi*, Cinzia Severini* and Roberta Possenti* 2010 Cell Biol. Int. Rep. 17(1). On line Pubbl

SP protects cerebellar granule cells against beta-amyloid-induced apoptosis by down-regulation and reduced activity of Kv4 potassium channels.

Pieri M, Amadoro G, Carunchio I, Ciotti MT, Quaresima S, Florenzano F, Calissano P, Possenti R, Zona C, Severini C.
Neuropharmacology. 2010 Jan;58(1):268-76.

TLQP-21, a VGF-derived peptide, prevents ethanol-induced gastric lesions: insights into its mode of action.

Sibilia V, Pagani F, Bulgarelli I, Mrak E, Broccardo M, Improta G, Severini C, Possenti R, Guidobono F.
Neuroendocrinology. 2010;92(3):189-97. Epub 2010 Aug 30.

SP protects cerebellar granule cells against beta-amyloid-induced apoptosis by down-regulation and reduced activity of Kv4 potassium channels.

Pieri M, Amadoro G, Carunchio I, Ciotti MT, Quaresima S, Florenzano F, Calissano P, Possenti R, Zona C, Severini C.
Neuropharmacology. 2010 Jan;58(1):268-76. Epub 2009 Jul 2.

In vitro and in vivo pharmacological role of TLQP-21, a VGF-derived peptide, in the regulation of rat gastric motor functions.

Severini C, La Corte G, Improta G, Broccardo M, Agostini S, Petrella C, Sibilia V, Pagani F, Guidobono F, Bulgarelli I, Ferri GL, Brancia C, Rinaldi AM, Levi A, Possenti R.
Br J Pharmacol. 2009 Jul;157(6):984-93.

Chronic intracerebroventricular injection of TLQP-21 prevents high fat diet induced weight gain in fast weight-gaining mice.

Bartolomucci A, Bresciani E, Bulgarelli I, Rigamonti AE, Pascucci T, Levi A, Possenti R, Torsello A, Locatelli V, Muller EE, Moles A.

Genes Nutr. 2009 Mar;4(1):49-57.

TLQP-21, a neuroendocrine VGF-derived peptide, prevents cerebellar granule cells death induced by serum and potassium deprivation. Severini C, Ciotti MT, Biondini L, Quaresima S, Rinaldi AM, Levi A, Frank C, Possenti R. *J Neurochem.* 2008 Jan;104(2):534-44.

The VGF-derived peptide TLQP-21: A new modulatory peptide for inflammatory pain. Rizzi R, Bartolomucci A, Moles A, D'Amato F, Sacerdote P, Levi A, La Corte G, Ciotti MT, Possenti R, Pavone F. *Neurosci Lett.* 2008

Pathophysiological role of TLQP-21: gastrointestinal and metabolic functions. Bartolomucci A, Moles A, Levi A, Possenti R. *Eat Weight Disord.* 2008 Sep;13(3):e49-54.

VGF metabolic-related gene: distribution of its derived peptides in mammalian pancreatic islets Cocco C, Brancia C, Pirisi I, D'Amato F, Noli B, Possenti R, Ferri GL. *J Histochem Cytochem.* 2007 Jun;55(6):619-28.

Identification of novel peptide hormones in the human proteome by hidden Markov model screening. Mirabeau O, Perlas E, Severini C, Audero E, Gascuel O, Possenti R, Birney E, Rosenthal N, Gross C. *Genome Res.* 2007 Mar;17(3):320-7.

Chronic intracerebroventricular TLQP-21 delivery does not modulate the GH/IGF-1-axis and muscle strength in mice. Bartolomucci A, Rigamonti AE, Bulgarelli I, Torsello A, Locatelli V, Pavone F, Levi A, Possenti R, Muller EE, Moles A. *Growth Horm IGF Res.* 2007 Aug;17(4):342-5.

TLQP-21, a VGF-derived peptide, increases energy expenditure and prevents the early phase of diet-induced obesity. Bartolomucci A, La Corte G, Possenti R, Locatelli V, Rigamonti AE, Torsello A, Bresciani E, Bulgarelli I, Rizzi R, Pavone F, D'Amato FR, Severini C, Mignogna G, Giorgi A, Schininà ME, Elia G, Brancia C, Ferri GL, Conti R, Ciani B, Pascucci T, Dell'Omo G, Muller EE, Levi A, Moles A. *Proc Natl Acad Sci U S A.* 2006 Sep 26;103(39):14584-9.

Median eminence dopaminergic nerve terminals: a novel target in autoimmune polyendocrine syndrome? Cocco C, Meloni A, Boi F, Pinna G, Possenti R, Mariotti S, Ferri GL. *J Clin Endocrinol Metab.* 2005 Jul;90(7):4108-11.

Differential expression and seasonal modulation of VGF peptides in sheep pituitary Brancia C, Nicolussi P, Cappai P, La Corte G, Possenti R, Ferri GL. *J Endocrinol.* 2005 Jul;186(1):97-107.

Pro-VGF-derived peptides induce penile erection in male rats: Involvement of

paraventricular nitric oxide

Succu S, Mascia MS, Melis T, Sanna F, Melis MR, Possenti R, Argiolas A..
Neuropharmacology. 2005 Dec;49(7):1017-25.

The role of the vgf gene and VGF-derived peptides in nutrition and metabolism.

Bartolomucci A, Possenti R, Levi A, Pavone F, Moles A. Genes Nutr. 2007 Nov;2(2):169-80

Processing, distribution, and function of VGF, a neuronal and endocrine peptide precursor

Levi A, Ferri GL, Watson E, Possenti R, Salton SR. Cell Mol Neurobiol. 24:517-33. 2004 (2.102)

The neuroendocrine protein VGF is sorted into dense-core granules and is secreted apically by polarized rat thyroid epithelial cells

Gentile F, Cali G, Zurzolo C, Corteggio A, Rosa P, Calegari F, Levi A, Possenti R, Puri C, Tacchetti C, Nitsch L. Exp Cell Res. 295:269-80. 2004 (5,096)

Pro-VGF-derived peptides induce penile erection in male rats: possible involvement of oxytocin

Succu S, Cocco C, Mascia MS, Melis T, Melis MR, Possenti R, Levi A, Ferri GL, Argiolas A. Eur J Neurosci. 2004 Dec;20(11):3035-40.

Gene expression profiles of apoptotic neurons

Cavallaro S, D'Agata V, Alessi E, Coffa S, Alkon DL, Manickam P, Ciotti MT, Possenti R, Bonini P, Marlier L, Calissano P. Genomics. 2004 Sep;84(3):485-96.

Isolation and characterization of VGF peptides in rat brain.

E. Trani, A. Giorgi, N. Canu,, G. Amadoro, A.M.Rinaldi, P.A. Halban, G.L. Ferri, R. Possenti, M.E. Schininà, and A. Levi. J. Neurochem. 81:565-74 2002

VGF: a novel role for this neuronal and neuroendocrine polypeptide in the regulation of energy balance.

S.R.J. salton, G.-L. Ferri, S. Hahm , S.E. Snyder, A.J. Wilson, R. Possenti and A. Levi: Front in Neuroendocrinology 21: 199-219 2000
